

# Vapor Lock

- ✓ Increase Worker Safety
- ✓ Quick Tank Entry for Scheduled Inspections and Cleanings
- ✓ Less Down Time
- ✓ Immediately Eliminate LELs (flammable gases) upon contact

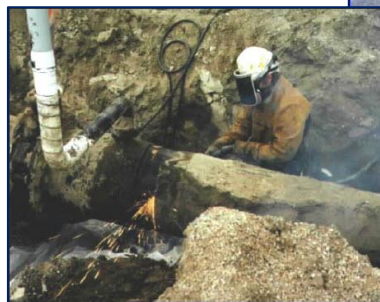

## Suggested Uses:

- Tank Entry
- Tank Cleaning
- Vapor Suppression for Worker Safety
- Sump Testing
- Excavations

This blend of suppressing agents applies with any water applicator (water truck, agriculture sprayer, pressure washer, hydro blaster, etc.) Use for VOC and Odor suppression, vapors in atmosphere, tanks, on soils during excavations, normal processing and turnarounds. Gives long term suppression. Increases worker safety. Increases efficacy in tank degassing applications. Use in UST's, pipelines, confined space entry, surface spills, vaults and more. Excellent for odor control from organic breakdown.

## Effective on:

- Fuels
- Solvents
- Alcohols
- All Petroleum Hydrocarbons

✓ Safe    ✓ Non-Toxic    ✓ Biodegradable
